

# Stallion Information

## February 2019

# Stallion Information 2019

This 2019 Stallion Information is being presented to you as an aid in choosing a stallion. When choosing a stallion it is not just important to use the best-quality stallions but it is even more important to make the correct combinations. The KFPS strives to make as many breeding data on its stallions available as possible.

## Which stallions?

In the 2019 edition of Stallion Information all active stallions are displayed. For exterior, by viewing the results, the young stallion's offspring information is still not included. These breeding values are based on breeding pedigree data and the exterior assessment (linear score) of the stallion itself. For stallions that the offspring have gone through, the results are almost entirely based on test data (linear score) of offspring. The reliability of the results of young stallions is still low. This means that the results can change more (as descendants are inspected) than the older stallions with a high reliability. By the lower reliability of the results of younger stallions, these cautious estimates and are closer to the breed average (100).

## Which characteristics?

The following characteristics of the stallions are included:

1. Breeding value linear exterior characteristics
2. Breeding values for sport aptitude

## Breeding values exterior and sport aptitude

Given the complexity of the breeding-value estimation for the exterior characteristics and sport aptitude an explanation of the origins and the interpretation of the numbers is necessary. In this explanation we also touch upon how the numbers can be used for choosing a stallion.

## The linear characteristics

The breeding values for the exterior characteristics are based on the linear scores, which since 1993 are documented for every studbook registration of the horses. Of the 25 exterior characteristics a score is given between 5 and 45, with an average of 25. For the linear characteristics it specifically concerns an observation and not a rating. The characteristics have been chosen such that the linear report provides a picture of the horse's exterior that is as complete as possible. The linear characteristics can be divided in two categories:

**The optimal characteristics:** the characteristics for which the average score (25) or breeding value (100) is most desired.

Examples of such characteristics are: shape of the back, conformation of the front legs, and shape of the hind legs.

**Maximum characteristics:** the characteristics for which goes the higher the better (example: expression of the face, expression of movement, etc.) or characteristics of which the optimum lies clearly above average, such as slope of the shoulder and shape of

the croup. The difference has been visualized by depicting the breeding values for the maximum characteristics with dark-blue bars (favorable) and red bars (unfavorable), and the breeding values for the optimum characteristics with light-blue bars. In addition to the 25 linear characteristics the overview consists of a measured characteristic: the height at the withers.

## The rated characteristics

In addition to the 25 linear exterior characteristics also five rated characteristics are scored: breed type, build, legs, walk, and trot. For the linear characteristics it concerns a descriptive value, for the rated characteristics it concerns a rating. When evaluating the rated exterior characteristics the related linear characteristics play an important role. In addition non-linear scored segments can play a role. The characteristic trot, e.g., consists in addition to the linear characteristics length of the trot, strength of the trot, balance, and suppleness also of, e.g., rhythm/regularity of the trot. The rated characteristics are scored from 4 through 9. Since 2016, the marks for the rating characteristics scored in upgrading procedures are included in the breeding value assessment. Since 2017 the bottom bar marks scored in the sections Starmares are also included in the breeding value assessment.

## Sport aptitude

The breeding values are based on the ABFP results as these have been gathered by KFPS over the years, also as part of the testing on offspring. The reasons that this particular data is used for the breeding-value estimation instead of, e.g. sport results are the following: **1.** ABFP information is available much earlier than sport data. **2.** ABFP data is for a larger part hereditary (higher h2) than sport data. That is thanks to the uniform training, presentation, and evaluation. **3.** Number of offspring per stallion in sport is in general (still) too low. **4.** The ABFP data gives information on segments (basic gaits, suitability as show-driving horses, riding horses, and driving horses).

Since the breeding value assessment of December 2015 all ABFP data as well as the IBOP data are included in the breeding value assessment.

## The estimation model

The breeding values, estimated by CRV / Dutch Cattle Syndicate, are estimated with a so-called estimation model. This estimation model indicates for which influences the differences between (in this case) stallions are corrected. The exterior scores are

corrected for the following effects: breeding value of the dam of the offspring, age at the time of inspection, gender, linear evaluator, and inspection. This correction takes place to get an insight as pure as possible in to what degree the differences in offspring groups are caused by difference in genetic aptitude of the stallions. With these correction factors it basically does not matter in what area or on what mares a certain stallion is used. The kind of evaluation model that is being used is the so-called animal model. With an animal model in addition to data on offspring also information of family members is included. The contribution of this information declines as more information on the offspring becomes available.

## Interpretation of the breeding values

The breeding values are indicated in an average of 100 with a spread of 4 points. This basis was determined in 2001. The average breeding values of all horses born in 2001 is for each characteristic set at 100 and the spread (standard deviation) of these breeding values is set at 4. Breeding values with a deviation compared to 100 of one time the spread (between 96 and 104) have to be considered as average. Over two thirds of the breeding values are in this margin. It goes without saying that the larger the deviation is compared to 100, the larger the expected effect is. A stallion with a breeding value of 109 or higher for, e.g., strength of movement, belongs to the 2% best stallions of the population. For a breeding value higher than 112 this is 0.1%.

## Reliability of the Breeding values

The breeding values are indicated per characteristic with 'bars.' As mentioned the maximum characteristics are indicated by dark-blue bars (favorable) and red bars (unfavorable) and the optimal characteristics by light-blue bars. For the maximum characteristics goes that results to the left are unfavorable (red) and results to the right are favorable (dark-blue). For the optimal characteristics goes that (extreme) results to both the left and right are unfavorable; 100 is optimal here. Summarized: Bars to the left are always unfavorable and bars to the right are favorable, except for the light blue bars.

## Reliability

The degree to which the breeding value provides a precise image of the actual genetic aptitude of a stallion is expressed in the reliability (betrouwbaarheid / btbh.). The reliability is especially influenced by the number of inspected offspring. With a low reliability the breeding values can still change considerably when more offspring are inspected. The reliability can be interpreted as followed:

Reliability	Interpretation
Less than 70%	moderately reliable
70-80%	reasonably reliable
80-90%	reliable
Over 90%	very reliable

## Use of the breeding values

The exterior breeding values are an excellent aid for making a correct mare-stallion combination. This can be done by looking at the mare's linear score form for the items that can be considered for correction. If the characteristic that needs to be corrected is a maximum characteristic then a stallion needs to be selected that has a (clearly) positive hereditary effect on this characteristic (bar to the right). If it concerns an optimal characteristic then the best choice is a stallion with an average breeding value or a slight deviation in the opposite direction, depending on the score of the mare. Use of the breeding values for sport aptitude. As you can see breeding values have been estimated for the basic gaits in the exterior bar and in the sport aptitude bar. The former is based on the evaluation of the basic gaits in the inspection ring (in hand), while the latter is based on the evaluation of the basic gaits in use (ABFP test). For most of the stallions these breeding values largely match. There are, however, stallions that have a breeding value for the basic gaits in the sport index that is quite a bit lower than the breeding value for the basic gaits in the exterior bar. Given the fact that the breeding goal indicates that we want to breed horses that have good gaits in especially their use the breeding values for sport aptitude should weight more heavily in your evaluation of the stallions.

## Kinship percentage

All Studbook stallions are given a rating for kinship percentage. This figure reflects a stallion's kinship to the population as a whole. The lower this percentage, the more such a stallion can contribute to out-crossing. The average percentage of Studbook stallions lies around 17.5%. The kinship percentage is calculated by computing the inbreeding coefficient of fictitious foals from the combinations of all individual stallions with the mare population. The mare population is in fact defined as all fillies that were born over the past three years, 8000 individuals in total. For the calculation of inbreeding all known generations are considered (instead of only the first 5 generations). The kinship percentage is influenced by the degree in which bloodlines correspond with or deviate from the population. The kinship percentage will increase in proportion to the degree in which a particular stallion is used. The kinship percentage is one of the aspects which are considered for the selection of young stallions to restrict the increase of inbreeding. In the calculations of kinship percentages in this issue a correction for missing pedigree information has been applied for the first time. Therefore the kinship percentage of stallions with a 'short dam line' has been revised upwards.

## Stallion information online

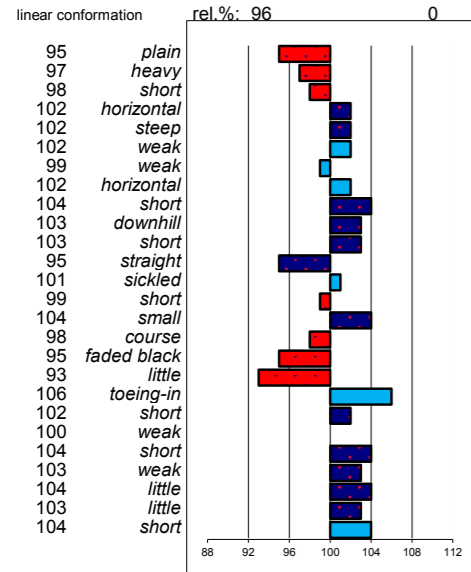

On the KFPS website ([www.kfps.nl](http://www.kfps.nl)) you also find the digital version of the Stallion Information. You can find it under the heading 'Breeding information' or 'My Horse' and here you will find even more detailed information about the stallions. In addition, you can make stallion selections by indicating selection criteria. In the digital version of the Stallion Information all Stallions are included.

## List of KFPS Studbook Stallions 2019

Below are the studbook stallions with a breeding permit stationed in the Netherlands for 2019.

Name stallion	Station	
Ulke 338	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Abe 346	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Jasper 366	Ancilla Bruggink, Hoornsterzwaag	S.W.S. Tel.: +31 (0)6-51923992
Rik 396	Opfok en Handelstal Tj. Bouma, Terkaple	S.W.S. Tel.: +31 (0)566-689741
Tsjalke 397	G. Toonen, Maren-Kessel	S.W.S. Tel.: +31 (0)412-479242
Rindert 406	Dekstation de Terpen, Wommels	S.W.S. Tel.: +31 (0)515-332505
Beart 411	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Bente 412	M. Schreven, Weert	S.W.S. Tel.: +31 (0)6-20399084
Aan 416	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Eibert 419	O.L. en M.C. v.d Weide, Ansen	S.W.S. Tel.: +31 (0)522-470405 of +31 (0)6-53751411
Haitse 425	Stal de Oergong, Huins	S.W.S. Tel.: +31 (0)6-20005570 of +31 (0)6-51032888
Gjalt 426	Stal Wijdewormer, Kwadijk	S.W.S. Tel.: +31 (0)299-439443
Jorn 430	Hestegaarden, Beek en Donk	S.W.S. Tel.: +31 (0)492-462396
Loadewyk 431	Stal Lytse Vlearen, Tzum	S.W.S. Tel.: +31 (0)6-54323659
Jense 432	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Maurits 437	Gebr. van Manen, Ede	S.W.S. Tel.: +31 (0)318-513371
Maeije 440	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Michiel 442	Stal Okkema, Britswert	S.W.S. Tel.: +31 (0)6-53818266
Olgert 445	Stal Wijdewormer, Kwadijk	S.W.S. Tel.: +31 (0)299-439443
Stendert 447	A. Couperus, Oostermeer	S.W.S. Tel.: +31 (0)6-12291174
Pier 448	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Sake 449	Stal Lytse Vlearen, Tzum	S.W.S. Tel.: +31 (0)6-54323659
Sipke 450	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Reinder 452	Tj. Bosma, Kollumerzwaag	S.W.S. Tel.: +31 (0)511-444820
Tsjalle 454	Stal de Mersken, Siegerswoude	S.W.S. Tel.: +31 (0)6-50247820
Take 455	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284

Name stallion	Station	
Uldrik 457	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Wimer 461	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Wytse 462	Fam. J.A.M. Kruis, Heeg	S.W.S. Tel.: +31 (0)6-46234423
Wylster 463	Henswoude, Oldeboorn	S.W.S. Tel/fax.: +31 (0)566-631364 /+31 (0)6-51003902
Alke 468	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111
Alwin 469	De Nieuwe Heuvel, Lunteren	S.W.S. Tel.: +31 (0)318-483284
Bikkel 470	Spliethof Paarden, Bladel	S.W.S. Tel.: +31 (0)6-46762880
Aarnold 471	Handels- en Exportstal Heuker B.V., Zevenhuizen	S.W.S. Tel.: +31 (0)594-632247 of +31 (0)6-50869431
Bartele 472	Handels- en Exportstal Heuker B.V., Zevenhuizen	S.W.S. Tel.: +31 (0)594-632247 of +31 (0)6-50869431

Wardy 509	Dekstation Gaasterland, Oudemirdum	S.W.S. Tel.: +31 (0)514-572111/604111

## EU Stations in the Netherlands

\* The list is final until the end of March. When there become new stallion stations, then this list will be updated on [www.kfps.nl](http://www.kfps.nl)

\* It is possible that certain stallions have frozen semen according to the EU rules. Notify always at the stations for the possibilities.

EU certified stations		
Gebr. van Manen	Zuiderkade 41, 6718 PG Ede	0318-513371
Henswoude	Prikwei 15, 8495 NG Oldeboorn	0566-631364
R.U. Utrecht	Yalelaan 7, 3584 CL Utrecht	030-2531264
De Nieuwe Heuvel	Veenstraat 1, 6741 EC Lunteren	0318-483284
Stal Wijde wormer	Kwadijk 27, 1471 CB Kwadijk	0299-439443
G. Toonen	Marenseweg 1, 5398 JD Maren Kessel	0412-479242

# Matthys 504

**Lineage:** Norbert 444 x Star Beart 411 x Star Krist 358 x Model Leffert 306  
**Date of birth:** 28 April 2012 **Height:** 1,67 m  
**Pedigree:** 2 **Kinship:** 18,2% (average)

**Exterior:**

**Breeding type:** The 6-year-old Matthys 504 is a breed-typical stallion with a youthful appearance. The head has satisfactory expressiveness and the neck is long with a more than satisfactory vertical build. The stallion has abundant feathers and coat colour is jet black.

**Conformation:** He has sloping shoulder conformation, the withers are high and short and would benefit from a more fluent connection with the back. Connection between loins and croups is good. Conformation of the croup is correct. Body shape is a fraction downhill.

**Legwork:** The legwork shows more than satisfactory quality. The hind leg has a bit of an upright pastern. Stance of the forelegs is correct.

**DNA-tests:**

**Hydrocephaly:** non-carrier status

**Dwarfism:** non-carrier status

**Chestnut factor:** non-carrier status

**Veterinary:** No comments.

**Estimated breeding value exterior:**

Reliability .....	48%
Breeding type .....	104
Conformation .....	110

**Performance Test:**

**Training report:** Three years ago Matthys 504 started in the Central Examination and was then redirected to the following year but was not delivered on location. Since then he has successfully competed in the sport both in dressage and in show driving. On account of his achievements in dressage he has acquired the Sport predicate. Matthys 504 is a hardworking stallion with great technique and capacity. In the early days of the Central Examination this intelligent stallion had some difficulties because of his show driving background, which affected his balance. It was difficult to ride him into a contact and he struggled to relax in the topline. As the test progressed this improved considerably.

Matthys 504 is a stallion with enormous capacity and great technique in the legs. In under-saddle work he stands out with his self-carriage in canter and his very good trainability. He has already developed great ability for collection work in dressage. In driven work he initially struggled to keep his balance. Matthys 504 has proven to be very talented for driving and exceptionally talented for show driving. In show driving he moves in a more than satisfactory uphill outline making a lot of front and demonstrating strong movement. The hind leg is placed well forward under the body with much bend in the hock. The foreleg has lots of knee action and is placed far forward.

**Walk:** He has a naturally active walk with satisfactory length of stride. When stress levels build up his walk is vulnerable and can be affected.

**Trot:** The trot is characterised by a lot of technique in movement and scope combined with plenty capacity for transitions. The hind leg is placed well forward under the body showing ample flexion in the hock joint. Matthys 504 shows good self-carriage in all disciplines but stays a little too high in the croup.

**Canter:** Matthys 504 canters with powerful uphill strides resulting in good self-carriage. The stallion also demonstrates to have good capacity for collection in canter and responds well to training.

**Riding horse aptitude:**

Matthys 504 has lots of aptitude for dressage

work with great capacity for transitions. He has a good-quality canter. Matthys 504 gives his rider a satisfactorily good feeling.

**Driving horse aptitude:**

Matthys 504 is very talented for driving work. He moves with great self-posture but must learn to move with a better connection. Matthys 504 struggles a bit to find his balance in driven work. The stallion has lots of go and great work ethics. Because of his good self-carriage and good, strong movement technique with lots of flexion in the joints, Matthys 504 is found to have a lot of talent for show driving work. The stallion demonstrates very good use of both foreleg and hind leg. In show driving work he needs to develop a more uphill outline.

**Test results riding test:**

Walk .....	6.5
Trot .....	8.0
Canter .....	8.5
Balance/carriage .....	8.0
Suppleness .....	7.5
Transitions .....	8.0
Impulsion .....	8.5
Total .....	86.0

**Test results driving test:**

Walk .....	6.0
Trot .....	8.5
Balance/carriage .....	7.0
Suppleness .....	7.5
Transitions .....	8.5
Impulsion .....	8.0
Total .....	82.5

**Test results show driving test:**

Use foreleg .....	8.5
Use hind leg .....	8.0
Suspension .....	8.0
Carriage .....	7.5
Front .....	8.0
Suppleness .....	7.5
Impulsion .....	8.0
Total .....	87.5

**Findings Performance Test:**

During the Performance Test Matthys 504 has demonstrated good progression in all three disciplines. His balance continually improved in driven work. Matthys 504 stands out because of his good self-carriage

ge, his strong movement technique and very good canter.

**Final conclusion:**

Matthys 504 has good lineage, a good exterior and has completed a very good Performance Test showing lots of talent for all disciplines. On the basis of these findings the stallion will be registered in the Stallion Studbook under the name of Matthys 504.

**Dam report:**

**General:** Dam Wylster H. is an 11-year-old mare with more than satisfactory breed expression and a youthful appearance. She has more than satisfactory expressiveness of the head, a light head-neck connection and satisfactory muscle and length in the neck which is however, slightly horizontally placed. The shoulders have the required sloping conformation. She has a strong topline with flowing connections from the withers to the back, loins and croup. Croup conformation is slightly sloping but with satisfactory length. Body shape is a little downhill partly because of the slightly short foreleg. The legwork radiates quality and durability. The foreleg is slightly toeing-in. Stance of the hind leg is correct with satisfactory angle in the hock. She has well-shaped feet. The walk is regular with good ground-coverage and more than satisfactory power. The mare presents a regular trot with more than satisfactory power. The mare should develop a bit more self-carriage in trot.

**Dam line:** Matthys 504 is a son by Norbert 444 out of a Beart 411 daughter. This results in a high kinship percentage which means that in combination with a relatively large number of mares the match will produce a high inbreeding percentage. His dam is a first-premium Star mare with so far three Star offspring. Next in his dam line (pedigree 2) we find a Star mare by Krist 358 and a Model mare by Leffert 306. Higher up in the dam line we come across the well-known Model Preferent Ritske 202 daughter Zierda.

**Advice:**

Matthys 504 is expected to improve mentality, trainability and movement technique in dressage as well as in show driving.

# Teun 505

**Lineage:** Bartele 472 x Star Rindert 406 x Model Sport Pref\*5 Fabe 348 x Star Pref\*13 Prest Feitse 293  
**Date of birth:** 13 April 2014 **Height:** 1,64 m  
**Pedigree:** 50 **Kinship:** 18,0% (average)

## Exterior:

**Breeding type:** Teun 505 is a stallion with a fine model and with his noble head and good vertical build of the neck he has very good breed expression. The stallion has abundant feathers and coat colour is jet black.

**Conformation:** Teun 505 is a longlined stallion with correct conformation. Musculature of poll and neck is somewhat heavy. The long shoulder has the required sloping conformation. The withers are well-developed and flow smoothly through to the back. The topline is strong and well-muscled with a good connection from the loins to the croup. He has a lightly sloping croup. Body shape is horizontal.

**Legwork:** The legwork should radiate more quality. The foreleg has a tendency to toeing-in. The hind legs are slightly sickle-hocked.

## DNA-tests:

**Hydrocephaly:** non-carrier status  
**Dwarfism:** non-carrier status  
**Chestnut factor:** non-carrier status

## Estimated breeding value exterior:

Reliability .....	42%
Breeding type .....	110
Conformation .....	109
Legwork .....	106
Walk .....	103
Trot .....	106

## Character/personality:

	a	b	c	d	e

## Veterinary:

Left knee osteochondrosis (OCD) grade C.

## Performance Test:

**Training report:** Teun 505 started the Central Examination in the previous year but was redirected to this year. The stallion has gone through a major development compared to last year. In the initial stages of the examination Teun 505 easily tensed up. In the course of the test the stallion started to move with more looseness in the topline. He demonstrates great technique in movement and ditto self-carriage in all disciplines. Flexion in the joints is good and his style of canter is a positive asset. After the saddle test the stallion had a little dip but he has bounced back well. Thanks to his good trainability and hard-working attitude he gives his riders and drivers a good feeling. Teun 505 is easy to train in all disciplines.

**Walk:** When he suffers from tension he walks with short strides. When relaxed, the stallion displays an active walk with satisfactory scope and then he moves well through his body.

**Trot:** In trot Teun 505 demonstrates great technique in movement with lots of flexion in the joints. The hind leg steps far forward under the body and the foreleg has knee action with good forward reach. His trot is characterised by good suppleness. In all disciplines the stallion presents a satisfactory uphill frame in trot.

**Canter:** The canter is powerful with a good uphill quality showing lots of scope and satisfactory self-carriage.

## Riding horse aptitude:

Teun 505 is very talented for dressage work. He is hard-working with good trainability skills and gives his rider a good feeling.

## Driving horse aptitude:

Teun 505 has great capacity for driven work. In show driving he displays lots of

go, moves with lots of technique and in a satisfactory uphill outline. He should develop a bit more front.

## Test results riding test:

Walk .....	6.5
Trot .....	7.5
Canter .....	8.0
Balance/carriage .....	8.0
Suppleness .....	7.5
Transitions .....	8.0
Impulsion .....	8.0
Total .....	83.5

## Test results driving test:

Walk .....	7.0
Trot .....	8.0
Balance/carriage .....	8.0
Suppleness .....	7.5
Transitions .....	7.5
Impulsion .....	7.5
Total .....	83.5

## Test results show driving test:

Use foreleg .....	8.0
Use hind leg .....	8.0
Suspension .....	7.5
Carriage .....	8.0
Front .....	7.5
Suppleness .....	7.5
Impulsion .....	7.5
Total .....	85.5

## Findings Performance Test:

In the course of the test Teun 505 has shown good progress in all three disciplines. This inquisitive stallion has an eager attitude and is easy to train. For riders and drivers he is a joy to ride or drive.

## Final conclusion:

Teun 505 has a good lineage and was bred from a dam line that has produced several approved stallions. The stallion has a good exterior and has completed a good test. On the basis of these findings the stallion will be registered in the Stallion Studbook under the name of Teun 505.

## Dam report:

**General:** Richt fan Lutke Peinjum is a well-preserved 13-year-old mare with a lot of front. She has a strong physique and shows powerful movement. The mare has an expressive head with a slightly long face, more than satisfactory feathers and coat colour is jet black. The poll is a bit short and the head-neck connection should be a little lighter. The vertically-placed neck with satisfactory length rises fairly deep from the chest. Shoulder conformation is sloping. The withers are somewhat short but with satisfactory connection to the back. Topline is strong with a good connection to the croup. The croup is of more than satisfactory length with lightly sloping conformation. Body shape is almost horizontal. The legwork shows more than satisfactory quality. Stance of the foreleg is standing-under with a tendency to toeing-in. The hind legs are slightly sickle-hocked. The feet are well-shaped and well-matched. The active walk is regular with satisfactory power and ground-coverage. In trot this mare demonstrates good posture with a powerful, electric hind leg that is placed forward under the body with satisfactory reach.

**Dam line:** Teun 505 is a Bartele 472 son out of a Star mare by Rindert 406 who so far has three Star offspring. His granddam is a Model Sport Preferent mare by Fabe 348. His greatgranddam (3rd dam) is the famous Feitse 293 daughter Setske F. This Setske F. is Star, Preferent and Performance, has as many as thirteen Star offspring and is dam of the Preferent Beart 411. Before her we find the well-known mare Kingke Stb. Model Preferent by Dagho.

## Advice:

Teun 505 is expected to improve breeding type, model, movement technique, attitude and trainability.

# Ulbe 506

**Lineage:** Anders 451 x Star Pref\*5 Anton 343 x Star Pref\*6 Hearke 254 x Star Pref\*4 Cobus 248  
**Date of birth:** 13 May 2014 **Height:** 1,64 m  
**Pedigree:** 10 **Kinship:** 16,5% (average)

### Exterior:

**Breeding type:** Ulbe 506 is a stallion with more than satisfactory breeding type, an attractive front and his head has satisfactory expression. The neck is long. Ulbe 506 has satisfactory feathers and more than satisfactory blackness of coat colour.

**Conformation:** Ulbe 506 is a stallion with good connections in the topline and horizontal body shape. The poll has satisfactory length and the head/neck connection is a bit heavy. The neck with satisfactory vertical build and length rises a little deep from the chest. Shoulder conformation is sloping. Croup conformation is steeper than desired.

**Legwork:** The legwork is satisfactorily clean and dry. The hind leg has a bit of an upright pastern. The foreleg has a tendency to toeing-in.

### DNA-tests:

**Hydrocephaly:** non-carrier status

**Dwarfism:** carrier status

**Chestnut factor:** non-carrier status

### Estimated breeding value exterior:

Reliability .....	42%

### Veterinary:

No comments.

### Performance Test:

**Training report:** Ulbe 506 is a pleasing stallion who is very cooperative. Outstanding assets are his positive attitude and very good trainability. When working he displays good balance with good body posture and his capacity for transitions is good. In ridden work his very engaged canter positively catches the eye. Both riders and drivers praise him for his cooperative character. In front of the carriage he moves with good posture and in show driving he attracts attention with his fine uphill frame and appealing front in movement. The hind leg displays more than satisfactory technique in all disciplines but must develop more activity.

**Walk:** The walk is regular showing satisfactory ground-coverage with satisfactory activity and use of the body. In walk the hind leg should develop a little more bend in the hock but this improves considerably with training.

**Trot:** The trot shows ample ground-coverage with more than satisfactory impulsion. Ulbe 506 trots with balance, good use of the body and good self-carriage. The hind leg should be a little more electric and faster but the stallion is easy to train in this respect.

**Canter:** In canter he moves with more than satisfactory, uphill strides, with good use of the body and the transitions come easy to him. In this pace Ulbe 506 demonstrates good self-carriage.

### Riding horse aptitude:

Ulbe 506 has more than satisfactory aptitude as a riding horse. He responds very well to training and is found to have a very good attitude to work. He moves in a more than satisfactory uphill outline and he demonstrates a good-quality canter.

### Driving horse aptitude:

Ulbe 506 is very talented for driven work because of his willingness to work, posture and trainability. He is a joy to drive and moves with more than satisfactory technique, good suppleness and in an uphill outline. Ulbe 506 has more than satisfactory aptitude as a show driving horse. He develops a satisfactory front in a more than satisfactory uphill frame, is a joy to drive and very forward-going. For show driving work the hind leg should be placed under the body with more alacrity and activity.

### Test results riding test:

Walk .....	6.5
Trot .....	7.5
Canter .....	7.5
Balance/carriage .....	7.5
Suppleness .....	7.5
Transitions .....	7.5
Impulsion .....	7.5
<b>Total .....</b>	<b>80.5</b>

### Test results driving test:

Walk .....	6.5
Trot .....	7.5
Balance/carriage .....	7.5
Suppleness .....	7.5
Transitions .....	7.5
Impulsion .....	7.5
<b>Total .....</b>	<b>80.5</b>

### Test results show driving test:

Use foreleg .....	7.5
Use hind leg .....	7.0
Suspension .....	7.5
Carriage .....	7.5
Front .....	7.5
Suppleness .....	7.5
Impulsion .....	7.5
<b>Total .....</b>	<b>81.5</b>

### Findings Performance Test:

In the course of the test Ulbe 506 has gone through a positive development in all three disciplines. He responds very well to training, is found to have a good attitude

to work and is a pleasure to work with. For show driving work the hind leg should be a little more electric, but this improves well with training.

### Final conclusion:

Ulbe 506 has a good exterior, good lineage and with 16,5% a relatively low kinship percentage. He has completed a good test showing lots of talent for all three disciplines. On the basis of these results he has been registered in the Studbook.

### Dam report:

**General:** The now 19-year-old dam Willy 'fan Panhuys' is still in fine condition. She is a correctly-built mare with a good rectangular model. She has an expressive head. The poll is a bit short and the long neck has a vertical build. She has satisfactory slope in the shoulders and connections in the topline show satisfactory strength. The croup is sloping but lacks length. The legwork has satisfactory quality. The walk shows satisfactory ground-coverage with more than satisfactory activity and ample use of the body. She has a roomy and active trot in which she moves with great balance while placing the hind leg well under the body.

**Dam line:** Ulbe 506 is out of the Star Preferent mare Willy 'fan Panhuys'. Being a son of Anders 451 stallion Ulbe 506 has a relatively low kinship percentage of 16,5%. This is consolidated by the fact that he has no direct link to the stallions Feitse 293, Leffert 306, Jasper 366 and Reitse 272. Ulbe 506 was bred in Denmark out of a Star Preferent daughter by Anton 343. Next in the dam line (pedigree 10) we find Star Preferent daughters by, respectively, Hearke 254 and Cobus 248.

### Advice:

Ulbe 506 is expected to improve mentality, suppleness, use of the body and trainability and is also interesting because of his low kinship. He should be used for mares that have satisfactory activity in the hind leg.

# Yme 507

**Lineage:** Tsjalle 454 x Model Sport Bente 412 x Model Pref\*4 Wierd 409 x Star Oltman 317  
**Date of birth:** 26 April 2015 **Height:** 1,62 m  
**Pedigree:** 25 **Kinship:** 18,1% (average)

**Exterior:**

**Breeding type:** Yme 507 is a stallion with an appealing front. With his small head and neck with good vertical build this stallion exudes breed expression.  
**Conformation:** Yme 507 is a stallion with a strong physique and a little bit of a square model. The head/neck connection is light with more than satisfactory length of poll. He has more than satisfactory slope in the shoulders. The connections between withers, back, loins and croup are flowing and strong. Croup conformation is slightly steep but no more than average. Body shape is a bit downhill partly because of the slightly short foreleg.  
**Legwork:** Stance of the foreleg is a little base-narrow. The stallion slightly lacks dryness of legwork. The hind legs are a bit sickle-hocked.

**DNA-tests:**  
**Hydrocephaly:** non-carrier status  
**Dwarfism:** non-carrier status  
**Chestnut factor:** non-carrier status

**Estimated breeding value exterior:**

Reliability .....	42%

**Veterinary:**

No comments.

**Performance Test:**

**Training report:** In the test Yme 507 has amply demonstrated his talent for riding horse. The stallion has good use of the hind leg which he always places well forward under the body. He moves with an appealing posture and shows a lot of go in work. The stallion is easily distracted which does at times affect his rideability. He should therefore learn to move with more relaxation in the topline. In the course of the test the contact on the reins, and consequently also rideability and use of the body, improved and then he responds well to training under saddle. He has a talent for canter. Because of his attractive front he presents a beautiful appearance in all disciplines. Yme 507 has more than satisfactory aptitude as a driving horse. His capacity for transitions is good and uphill outline is satisfactory. A positive asset in driven work is his use of the hind leg. In show driving he makes a really fine front but he must learn to develop more rise in the forehand.

**Walk:** Yme 507 naturally walks with satisfactory activity and length of stride and satisfactory use of the body. When he becomes anxious the walk can be affected.

**Trot:** The trot has satisfactory scope and is powerful with satisfactory use of the body and suppleness. The hind leg is placed well forward under the body showing ample flexion in the hock joint. In the foreleg we see satisfactory reach in front and knee action.

**Canter:** He has a good-quality canter. At this stage the canter is still a bit rushed but with uphill strides and with more than satisfactory posture. He has more than satisfactory capacity for transitions in this pace.

**Riding horse aptitude:**

With his good canter, mentality and trainability Yme 507 proves to have lots of talent for dressage under saddle. In all three paces he presents a naturally good posture

and responds well to training, giving his rider a more than satisfactory, good feeling.

**Driving horse aptitude:**

Yme 507 has satisfactory driving horse aptitude. In this discipline he displays good movement technique with satisfactory use of the body responding with more than satisfactory trainability. In driven work he has a naturally good posture. Because of his use of foreleg and hind leg Yme 507 has satisfactory aptitude for show driving. Trainability in this discipline is satisfactory. In show driving work the stallion presents a satisfactory front but must learn to move in a more uphill frame.

**Test results riding test:**

Walk .....	6.5
Trot .....	7.5
Canter .....	8.0
Balance/carriage .....	7.5
Suppleness .....	7.0
Transitions .....	7.0
Impulsion .....	8.0
<b>Total .....</b>	<b>81.0</b>

**Test results driving test:**

Walk .....	6.0
Trot .....	7.5
Balance/carriage .....	7.5
Suppleness .....	7.0
Transitions .....	7.0
Impulsion .....	7.5
<b>Total .....</b>	<b>78.0</b>

**Test results show driving test:**

Use foreleg .....	7.0
Use hind leg .....	7.0
Suspension .....	6.5
Carriage .....	7.0
Front .....	7.5
Suppleness .....	7.0
Impulsion .....	7.0
<b>Total .....</b>	<b>77.0</b>

**Findings Performance Test:**

Yme 507 has made good progress in the course of the test. He shows more than satisfactory trainability and more than

satisfactory suppleness. He has a good mentality and great willingness to work giving his rider/driver a good feeling which is more than satisfactory. As a show driving horse he should develop more rise in the forehand.

**Final conclusion:**

Yme 507 has good lineage and has completed a good test in which he has developed well. He has proven to be very talented for riding work and has more than satisfactory aptitude for driving and show driving. On the basis of these results he has been registered in the Studbook.

**Dam report:**

**General:** Because of her impressive front his dam Hadewich Hyllested Østergaard has great allure. She has a fine rectangular model with a satisfactory, uphill build. She has an expressive head. The poll is long and the long neck has a vertical build. She has satisfactory slope in the shoulders and a flowing topline with strong connections. The croup is long but slightly steep. The legwork shows quality with satisfactory stance. The walk is roomy, powerful and active. The trot has satisfactory ground-coverage and power.

**Dam line:** Yme 507 was bred in Denmark from a mare line founded on stallions that have had relatively little influence on breeding. His dam is a Model mare by Bente 412 who also has the Sport predicate. His granddam, a Wierd 409 daughter, also has the Model predicate as well as Preferent status. His 3rd dam is a Star mare by Oltman 317 with three Star offspring. The 4th mare in the mare line is the famous Jakob 302 daughter Beitske fan Marksathe. She is Star Preferent and Performance and can boast eleven Star offspring. These horses from pedigree 25 stem from the same line as the Preferent Norbert 444.

**Advice:**

Yme 507 is expected to improve breed expression, use of the hind leg and the canter. He is a good match for mares with satisfactory, uphill build.

# Willem 508

**Lineage:** Hette 481 x Star Folkert 353 x Star Tsjomme 329 x Model Oege 267  
**Date of birth:** 5 May 2015 **Height:** 1,68 m  
**Pedigree:** 61 **Kinship:** 18,4% (above average)

**Exterior:**

**Breeding type:** Willem 508 is a big-framed stallion with satisfactory breeding type. The head has satisfactory expressiveness and the neck is long with a bit of a horizontal build. Willem 508 has satisfactory feathers and satisfactory black coat colour.

**Conformation:** Willem 508 is a longlined stallion with a rectangular model. He has satisfactory length in the poll and good length in the neck. Shoulder conformation is long and sloping. The long topline shows good connections but is somewhat poorly-muscled. Croup conformation is straight compared to breeding type standards. Upward build of the stallion is satisfactory.

**Legwork:** The legwork radiates quality. The foreleg has a tendency to toeing-in. Stance of the long hind leg is correct.

**DNA-tests:**

**Hydrocephaly:** non-carrier status

**Dwarfism:** carrier status

**Veterinary:**

On both sides osteochondrosis (OCD) in the fetlock joints, grade D

**Performance Test:**

**Training report:** Willem 508 has progressed well throughout the test. He is a very cooperative horse. Initially, he has a tendency to disengage himself from his surroundings when working but once he has gained confidence his trainability is good. The stallion moves with ease and great suppleness. In all disciplines he demonstrates a good walk, stepping well through his body. In trot the strides must develop more activity but self-carriage is satisfactory and response to training is good. The canter has strongly improved in the course of the test. In all disciplines the stallion must develop a more uphill outline. As a driving horse the stallion is fine to drive and train. In driven work he moves with much suppleness and use of the body. He has more than satisfactory aptitude as a driving horse. As a show driving horse he must rise more in the forehand and show more front with the hind leg stepping forward with more electricity.

**Walk:** He has a good-quality walk, which is roomy and powerful. He steps well through the body placing the hind leg far forward under the body.

**Trot:** The trot has satisfactory ground-coverage and power. The hind leg should be placed under the body with more alacrity and direction. In trot the stallion moves with great suppleness and use of the body. Willem 508 needs to develop a more upward outline in trot.

**Canter:** The canter shows good, ground-covering strides with ample use of the body and more than satisfactory balance. In canter Willem 508 moves in a satisfactory uphill posture.

**Riding horse aptitude:**

Willem 508 has more than satisfactory aptitude for dressage. He moves with good suppleness and use of the body and responds well to training in dressage work, giving the rider a good feeling.

Willem 508 displays satisfactory self-carriage in under-saddle work.

**Driving horse aptitude:**

Willem 508 has more than satisfactory aptitude for driven work. As a driving horse his trainability is more than satisfactory and he gives his driver a good feeling. He shows ample use of the body in driven work, but the hind leg should be placed under the body with more activity and direction. Carrying capacity is satisfactory but needs more rise in the front. As a show driving horse Willem 508 lacks natural elevation and front and the hind leg lags a little behind.

**Test results riding test:**

Walk .....	7.5
Trot .....	7.0
Canter .....	7.5
Balance/carriage .....	6.5
Suppleness .....	8.0

**Test results driving test:**

Walk .....	7.5
Trot .....	7.0
Balance/carriage .....	7.0
Suppleness .....	8.0
Transitions .....	7.0
Impulsion .....	7.0
Total .....	80.0

**Test results show driving test:**

Use foreleg .....	7.0
Use hind leg .....	6.5
Suspension .....	7.5
Carriage .....	7.0
Front .....	6.5
Suppleness .....	7.5
Impulsion .....	7.0
Total .....	76.5

**Findings Performance Test:**

Willem 508 has shown more than satisfactory progress in all three disciplines. He moves with good suppleness and use of the body, responds well to training and has more than satisfactory forward-go. He

is a joy to ride and shows more than satisfactory willingness to work. As a show driving horse he lacks natural rising in the front and should develop more front.

**Final conclusion:**

Willem 508 has more than satisfactory lineage, a good exterior and he has successfully completed the test. He was found to have more than satisfactory aptitude for the riding- and driving disciplines and satisfactory aptitude for show driving. On the basis of these results he has been registered in the Studbook.

**Dam report:**

**General:** Willem 508 was bred from Star mare Tjanneke L. She is an attractive mare with a satisfactory, correct build standing in a good rectangular model. She has an expressive head. The poll has satisfactory length and the long neck has satisfactory vertical conformation. She has satisfactory slope in the shoulders. The mid-section is slightly sunken but connections are strong enough. Connection between withers and back is somewhat short. Stance of the hind leg is satisfactory and shows more than satisfactory quality. She walks with good length of stride, stepping well through the body but the walk needs to develop more power. In trot she has satisfactory scope with more than satisfactory movement through the body but the hind leg must be placed forward with more power.

**Dam line:** Willem 508 is out of Star mare Tjanneke L. by Folkert 353, who has three Star offspring. His granddam is a Star mare by Tsjomme 329 who has two Star offspring, while his 3rd dam Roselita is a Model mare by Oege 267, also with two Star offspring. She, in turn, is a daughter of the Model Preferent mare Wealtsje (Jochem 259). Willem 508 comes from pedigree 61 which has also produced stallions such as Tamme, Tjimme and Wicher.

**Advice:**

Willem 508 is expected to improve model, rideability, the walk and suppleness. Willem 508 is a good match for mares with an active use of the hind leg.

# Wardy 509

**Lineage:** Hette 481 x Star Pref\*7 Prest Goffert 369 x Model Sport Feitse 293 x Star Pref\*8 Prest Hearke 254  
**Date of birth:** 6 June 2015 **Height:** 1,68 m  
**Pedigree:** 8 **Kinship:** 18,1% (average)

## Exterior:

**Breeding type:** Wardy 509 is a big-framed, breed-typical stallion. His head is expressive and because of his vertically-built neck the stallion has an attractive front. He has black coat colour but feathers are not overly rich.

**Conformation:** Wardy 509 has correct conformation with good proportions and has a rectangular model. The poll has length and the satisfactorily long neck is vertically placed. The shoulder has the required sloping conformation, the well-developed withers show a flowing connection to the back. The topline presents a strong and correct connection from back and loins to the croup. The croup has the right length with lightly sloping conformation. Because of the long foreleg body shape is horizontal.

**Legwork:** The legwork radiates quality. Foreleg conformation is correct. The hind leg has a bit of an upright pastern.

## DNA-tests:

**Hydrocephaly:** carrier status

**Dwarfism:** non-carrier status

**Chestnut factor:** non-carrier status

## Performance Test:

**Training report:** Wardy 509 has developed well in the course of the test. In the early stages he suffered from tension, staying tight in the body and rushing along which negatively influenced the contact on the reins and rideability. In the course of the test he developed a better balance which helped to improve rideability. Wardy 509 responds well to training and catches the eye with his very active use of the hind leg. He demonstrates great willingness to work. His very good walking technique also stands out. In canter Wardy 509 has progressed well and has developed a much better balance. He makes a fine picture as a riding horse. Positive assets in driven work are his good walk and strong, roomy movement. Wardy 509 has learned to move with more balance in driven work. He has a naturally good elevation in movement. Trainability in driven work is good. As a show driving horse he should develop more front.

**Walk:** The powerful and regular walk is roomy and well through the body in all disciplines.

**Trot:** The trot is characterised by good action and scope. The hind leg is placed well forward under the body showing ample flexion in the hock joint. The foreleg shows knee action and is generously placed forward. At the end of the test Wardy 509 demonstrates good balance in front of the carriage. Trainability in trot is good and he moves in a naturally satisfactory uphill frame. **Canter:** The canter is powerful and strides have more than satisfactory uphill quality. Balance in canter has increased in the course of the test.

## Riding horse aptitude:

Wardy 509 has lots of aptitude for dressage work. He displays good trainability and more than satisfactory self-carriage. He has good and strong movement technique with more than satisfactory quality in canter.

## Driving horse aptitude:

Wardy 509 is very talented for driven work.

In front of the carriage he moves with balance and rise in the front. Wardy 509 has good technique in trot showing good transitions in which his strong use of the hind leg positively catches the eye. The foreleg shows lots of knee action and is generously placed forward. He demonstrates lots of forward-go and is easy to train in front of the carriage. As a show driving horse he should develop more front.

## Test results riding test:

Walk .....	7.5
Trot .....	7.5
Canter .....	7.5

Suspension .....	7.5
Carriage .....	7.5
Front .....	7.5
Suppleness .....	7.5
Impulsion .....	8.0
<b>Total .....</b>	<b>87.5</b>

## Findings Performance Test:

Wardy 509 has shown a positive development throughout the test. He has strong technique in movement with more than satisfactory suppleness. His trainability is good and he presents a fine picture as a riding-, driving- as well show driving horse. For show driving he must learn to move with more front.

## Final conclusion:

Wardy 509 has good lineage and a very

good exterior and has completed a positive test in all three disciplines. On the basis of these results he has been registered in the Studbook.

## Dam report:

**General:** The now 18-year-old Star Preferent Performance mare Annegjen has stayed in very good shape and was presented in fine condition. The mare displays more than satisfactory breeding type. The head is expressive with a slightly longish face. She is not overly rich in feathers. The mare has correct conformation and a good rectangular model. The poll has more than satisfactory length and the long neck has satisfactory vertical conformation. The long shoulder has sloping conformation. The topline is fluent with strong connections. Croup conformation is slightly sloping and with satisfactory length. Stance of the hind leg is correct and radiates quality. She walks with long, powerful strides, stepping well through the body. She has a roomy trot and the hind leg is placed well forward under the body showing ample flexion in the hock joint.

**Dam line:** Wardy 509 was bred from the now 18-year-old, excellently preserved Goffert 369 daughter Annigjen who flaunts the predicates Star, Preferent and Performance. She has seven Star offspring with one Crown, one Model and two Sport offspring among them. The most well-known offspring are the approved Maeije 440 and the multiple National Champion broodmares in front of the sjees Ytsjen Model Sport. Wardy's granddam is a Model Sport mare by Feitse 293 and his 3rd dam is a Star, double Preferent Performance mare by Hearke 254. Wardy 509's pedigree unites two of the most prominent show driving lines. On the maternal side these are the show driving mares of pedigree 8. His sire Hette 481 harks back to the famous mares Fabiolaa and Ljurkje who produced the brothers Ulke 338 and Karel 370.

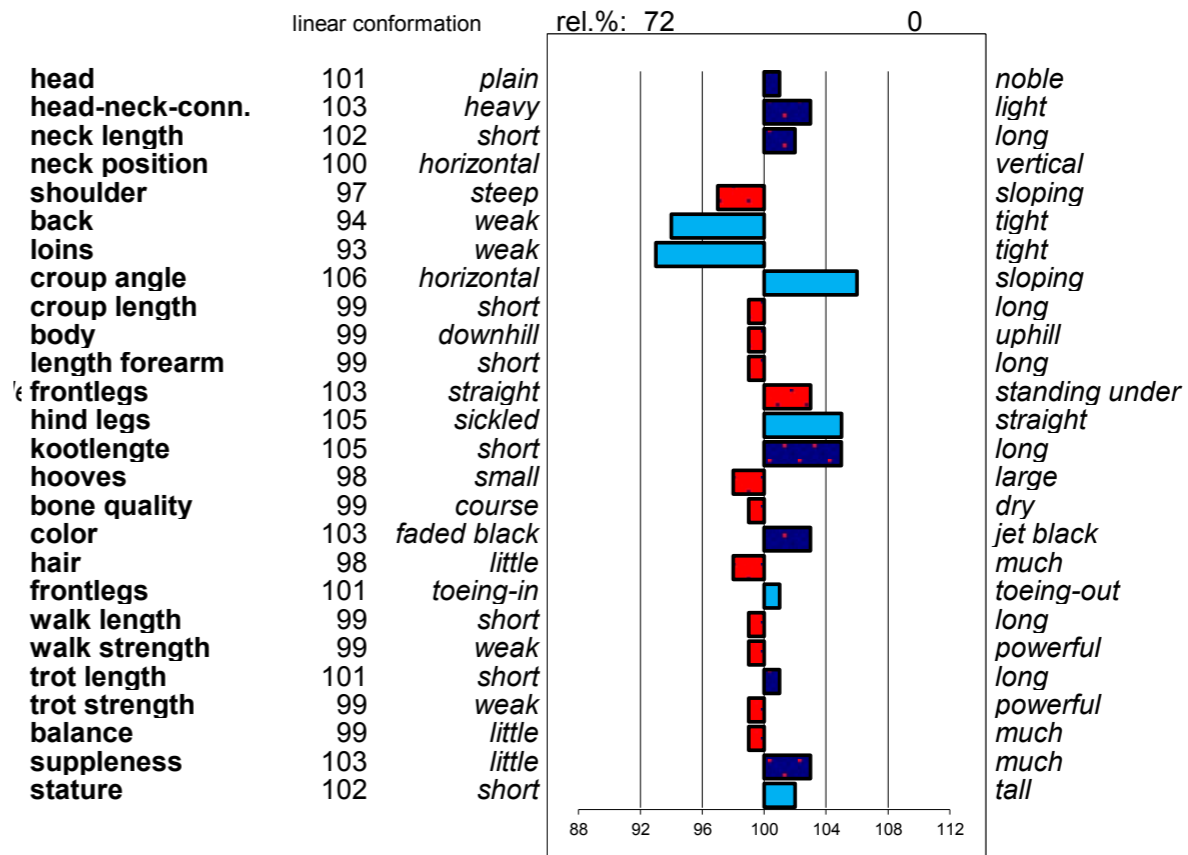

## Advice:

Wardy 509 is expected to improve model, attitude, the walk and leg technique.

**Report Progeny Test**  
December 2018

# Take 455

**Date of birth:** 15 March 2006  
**Breeder:** P. van der Meer, Tijnje  
**Owner:** A.P. Both, Voorthuizen & S.J. Kat BV, Egmond aan de Hoef  
**Lineage:** Jakob 302 x Star Pref Prest Oltman 317 x Star Pref Tsjalling 235 x Star Pref Hindrik 222  
**Kinship:** 17,0%

ABFP							
rel.	walk	trot	canter	riding	driving	showdr.	total
68	101	103	103	104	103	103	103

**General:**

Take 455 was approved in the autumn of 2009. In his performance test he caught the eye with his talent for driving. At the time he stood out because of his low kinship percentage. A total of 119 of his foals have been assessed at inspections. Until now twenty daughters have been registered in the Studbook, among them seven Star mares with a second premium. Five of his sons have the Star predicate.

**Exterior:**

The Take 455 offspring are a uniform group of horses with satisfactory breed expression. The heads have satisfactory noble expression and on the whole, head-neck connections are light. The necks could be a bit more vertical. Shoulders are generally a bit steep and back and loins are weak. Croup conformation is sloping and needs more length. The foreleg needs more length and in many cases is standing-under. In quite some cases stance of the hind leg is

straight. The legwork has satisfactory quality. The Take 455 offspring move with satisfactory to more than satisfactory suppleness but need to develop more length of stride, power and self-carriage.

**Training report and character:**

The Take 455 offspring are inquisitive horses with pleasing contact manners. In work they prove to be reliable, happy and relaxed horses. The horses have more than satisfactory trainability and have satisfactory stamina.

**Walk:** The walk has more than satisfactory length of stride with active use of the hind leg. Some of the offspring tend to struggle a bit with regularity, mostly in driven work.

**Trot:** The trot is roomy with a more than satisfactory, actively engaged hind leg.

**Canter:** In canter they move with good strides with more than satisfactory carrying capacity of the hind legs. The horses move with suppleness and more than satisfactory rise in front.

**Riding horse aptitude:**

In under-saddle work the Take 455 offspring are found to have three basic gaits with more than satisfactory quality. The use of the hind leg is a positive feature. Suppleness of the horses is relatively good.

**Driving horse aptitude:**

With the in-harness work the horses demonstrate good use of the hind leg with a more than satisfactory moment of suspension. They have more than satisfactory forward reach in the fore-legs. The horses present more than satisfactory posture but would benefit from slightly more front.

**Conclusion:**

Take 455 will be maintained for breeding. In use his progeny positively stand out, but should be more convincing in terms of conformation and legwork.

# Tonjes 459

**Date of birth:** 12 March 2006  
**Breeder:** Klaas en Mares van der Ploeg, Ithaca (Michigan, USA)  
**Owner:** KCF Farms, St.Thomas (Ontario, Can)  
**Lineage:** Anton 343 x Model Ulke 338 x Star Pref Leffert 336 x Star Pref Lammert 260 x Star Freak 218  
**Kinship:** 17,6%

**General:**

Tonjes 459 was bred in America where he successfully completed the Central Examination in the spring of 2010. The stallion has also served breeding in the Netherlands but meanwhile he has returned to the continent where he was born. From the Tonjes 459 offspring 29 daughters have been registered in the Studbook. One of them is Crown and seven of them have acquired the Star predicate with a second premium. Four of the eight inspected sons are Star.

**Exterior:**

The Tonjes 459 offspring are horses with more than satisfactory breed expression, expressive heads and vertically placed necks. Most offspring have good neck conformation with good length and a heavy head/neck connection. Back and loins are tight and croup conformation is normal. The legwork shows satisfactory hardiness, pasterns are short and feet are fairly small. Stance of the legs is generally

correct. Their movement displays satisfactory length of stride and power and the Tonjes 459 offspring move with satisfactory suppleness and more than satisfactory balance.

**Training report and character:**

The Tonjes 459 offspring have satisfactory willingness to work and are often a bit tense.

**Walk:** The walk varies from moderate to more than satisfactory scope of movement. The walk presents variable quality in terms of regularity. Generally speaking, the horses would benefit from more bend in the hock and many tense up in walk.

**Trot:** They should have more shoulder freedom in trot. Use of the hind leg shows satisfactory activity. In extended paces they need to develop more power. In trot the horses need to develop more posture.

**Canter:** The canter varies from moderate to satisfactory scope of movement, with moderate to satisfactory balance and their outline should be more uphill.

**Riding horse aptitude:**

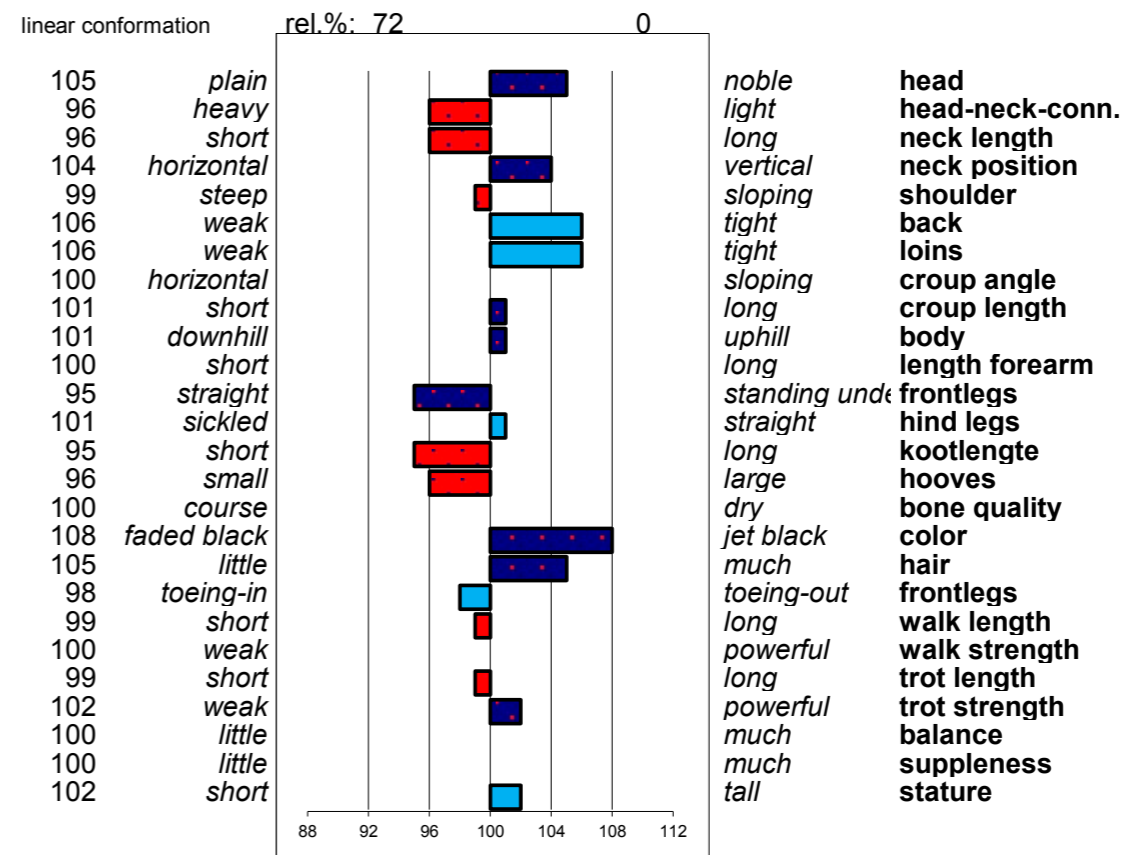

As a riding horse the Tonjes 459 offspring have moderate to satisfactory aptitude. The horses are found to have satisfactory suppleness and use of the body. Most of them slightly lack power from the hind leg which has quite an impact on their carrying capacity so that they move with moderate to satisfactory balance and also lack posture.

**Driving horse aptitude:**

The Tonjes 459 offspring have moderate aptitude for driven work. With in-harness work they need to develop more posture and front. Across the board they display moderate use of the hind leg.

**Conclusion:**

Tonjes 459 will be maintained for breeding. He is found to have satisfactory hereditary qualities for breeding type, conformation and legwork. His progeny should convince more in terms of movement and performances.

December 2018

# Hessel 480

**Date of birth:** 31 March 2010  
**Breeder:** M. van Elzaker, Lepelstraat  
**Owner:** Gebroeders van Manen, Ede  
**Lineage:** Norbert 444 x Star Pref Jelke 367 x Star Sport Pref Gerlof 294 x Lammert 260  
**Kinship:** 18,0%

**General:**

Hessel 480 was approved in the autumn of 2013 partly on account of his good exterior and he caught attention with his roomy trot, both under saddle as well as in the driving test. His performance in the test was more than satisfactory. With his first crop the Norbert 444 son Hessel 480 has shown to pass on his size to his offspring. In 2015 he had 163 offspring registered, with 91% bred from Star mares. Hessel 480 completed the Progeny Test in 2018 based on his first crop of 3-year-olds.

**Exterior:**

The Hessel 480 offspring are a uniform group of well-developed, longlined horses standing in a good rectangular model but they should radiate a bit more youth and nobility. They have satisfactory breeding type, heads could be slightly smaller and nobler, they have long necks that should have slightly more vertical build. Across the board, the Hessel 480 offspring have an upward build. Shoulder conformation is sloping. Back and loins are well-muscled, the croup has good length and is in most cases, horizontal. The foreleg has good length, hind leg is generally a bit long and slightly sickle-hocked. The legs are

clean and dry. In-hand, the Hessel 480 offspring walk with roomy and powerful strides. The trot has more than satisfactory ground-coverage, has more than satisfactory suppleness but the hind leg should be placed under the body with more activity. It appears that the Hessel 480 daughters display more activity in movement than his sons.

**Training report and character:**

The Hessel 480 offspring are inquisitive horses with good stable- and contact manners. Usually, they do not tense up in work but could be a little more responsive. They demonstrate satisfactory willingness to work and good learning capacity. From the side line the perception of impulsion is higher than felt from the saddle or driver's seat.

**Walk:** Under saddle the walk of the Hessel 480 offspring varies in regularity. Scope of movement is satisfactory with more than satisfactory activity.

**Trot:** The trot has more than satisfactory scope of movement with powerful use of the hind leg which is placed generously forward under the body.

**Canter:** The canter has good engagement of the hind legs with more than satisfactory suppleness and good posture.

**Riding horse aptitude:**

Under saddle the Hessel 480 offspring display more than satisfactory to lots of talent for riding horse. They move with more than satisfactory ground-coverage, good suppleness and have satisfactory to more than satisfactory trainability. Out of the 19 offspring tested in ABFP tests six individuals achieved over 77 points for the saddle test. Three of the Hessel 480 offspring were selected for the finals of the Friesian Talent Cup 2018/2019.

**Driving horse aptitude:**

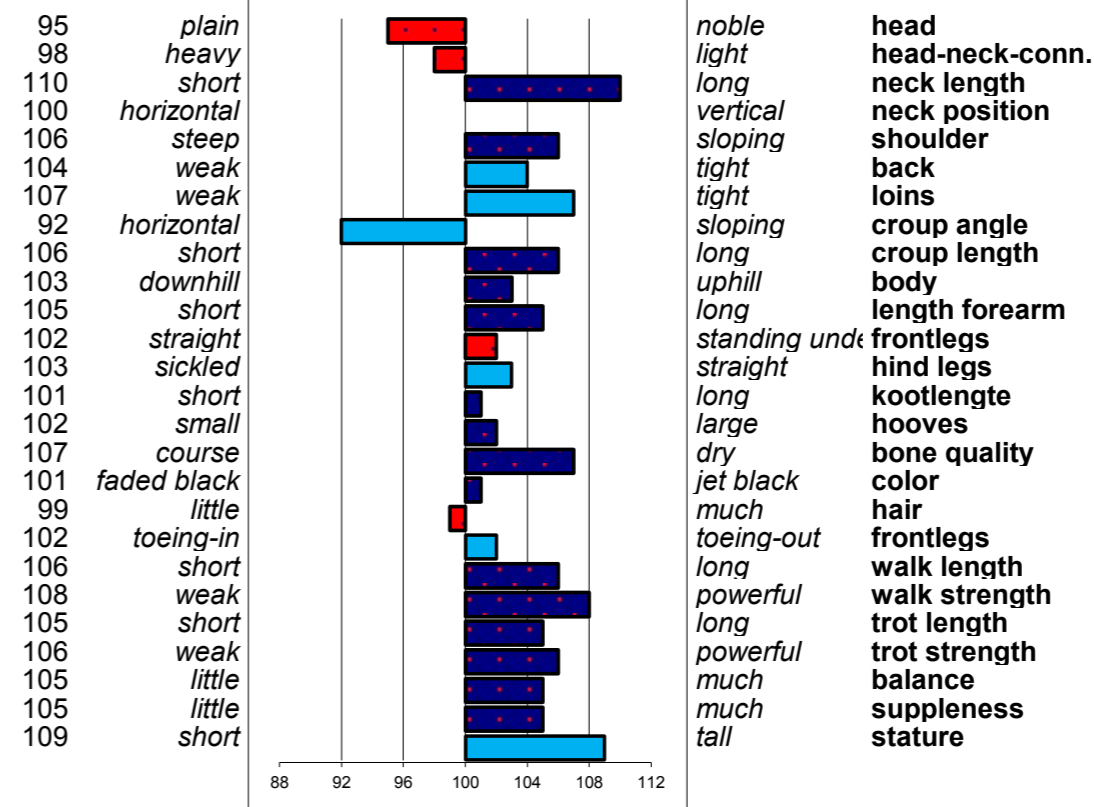

The Hessel 480 offspring displayed an active hind leg in the in-harness test, they have more than satisfactory front but need to develop more posture. They have more than satisfactory forward reach in the forelegs. A few offspring should show more forward-go and impulsion in driven work. Five of his 19 tested offspring achieved 77 or more points in the test.

**Conclusion:**

Hessel 480 will be maintained for breeding. In breeding, Hessel 480 has a positive influence on size, he passes on strong toplines, hardness of legwork and he seems to improve the canter.
