SANDRA NIEUWENDIJK

**Studbook name:** Mans van de Gonda **Life number:** 202001505 **Breeder:** M.A.W. Slagers-Karnebeek, Goor **Date of birth:** 28 April 2020 **Height at withers:** 1.68 metres **Lineage:** Teun 505 x Ster Pref\*4 Norbert 444 x Ster Pref\*5 Beart 411 x Ster Pref\*10 Anne 340 x Ster Pref\*4 Oege 267 x Ster Pref\*4 Peke 268 **Pedigree:** 13 **Kinship:** 18,7 % (average 17,8%)

### Exterior:

**Breeding type:** Mans 543 is a stallion with satisfactory breed expression. The stallion's head could be a bit more aristocratic but he has a long, vertical neck with a light head-neck connection.

**Conformation:** Mans 543 is a longlined stallion with an uphill build. He has a strong topline but is somewhat raised in the loin section. The croup has satisfactory length and is lightly sloping.

**Legwork:** Mans 543 has satisfactory length in the foreleg. Stance of the foreleg is correct, stance of the hind leg is a bit toeing-out and sickle-hocked. Hard and dry quality of legwork is satisfactory, the feet are welldeveloped.

### Estimated breeding value exterior:

Reliability .....	31-38%
Breeding type .....	108
Conformation .....	113
Legwork .....	106
Walk .....	105
Trot .....	106
Canter .....	104

### DNA-testen en Veterinary:

The stallion has met the regulatory requirements with regard to X-ray testing, semen quality and roaring.

<b>Dwarfism:</b>	non-carrier status
<b>Hydrocephaly:</b>	non-carrier status
<b>Chestnut factor:</b>	non-carrier status
<b>Veterinary:</b>	no observations
<b>Roaring:</b>	grade 1, good

### Observations stable manager, riders and drivers:

Mans 543 is a friendly and people-oriented stallion who is very inquisitive and alert to his surroundings. The stallion is a joy to work with in all disciplines but should move with a bit more go and elasticity in the body. Sometimes he has the tendency to shut down a bit when working.

### Central Examination:

Mans 543 completed the Central Examination at the age of three.

### Training report:

**Walk:** The stallion has a regular walk with satisfactory scope but in this pace he needs to develop more use of the body.

**Character/personality:**

		a	b	c	d	e	
<b>Stable manners</b>	difficult					x	pleasant
	energetic					x	calm
	frightened					x	inquisitive

	anxious					x	relaxed*
<b>Reliability</b>	unreliable					x	reliable
<b>Sensitivity</b>	little			x			much
<b>Anxiety</b>	quickly				x		slowly
<b>Trainability</b>	difficult				x		easy
<b>Responsiveness to aids</b>	little			x			much
<b>Willingness to work</b>	little			x			much
<b>Work ethics</b>	disagreeable				x		happy
<b>Perseverance</b>	little				x		much**
<b>Stamina</b>	little			x			much***
	freezes		x				flighty
<b>Concentration</b>	distracted				x		focused
<b>Learning capacity</b>	little				x		much

\* during tacking/hitching up, taking temperature etc. \*\* mental \*\*\* physical

**Trot:** Mans 543 trots with satisfactory use of the hind leg and with ample forward reach in the foreleg. Moment of suspension is satisfactory but he should demonstrate more use of the body, suppleness and willingness to work.

**Canter:** In canter Mans 543 shows satisfactory balance and quality of strides, but he must learn to move in a more uphill frame.

**Riding horse aptitude:**

Mans 543 struggles with the performance under saddle. He has a strong walk and a satisfactory canter, but he needs to develop more use of the body and suppleness in all paces. The stallion also struggles with his tail carriage.

**In-harness aptitude:**

Mans 543 has satisfactory aptitude for driving as well as for showdriving. In movement he demonstrates satisfactory bend in the hind leg and satisfactory capacity for transitions, placing the foreleg forward with ample reach and displaying very good stature and selfcarriage. He gives his driver a good feeling and is easy to train, also making progression.

**Test results riding test:**

Walk .....	7.5
Trot.....	6.0
Canter .....	7.5
Balance & posture .....	7.0
Suppleness .....	6.5
Transitions.....	6.0
Impulsion .....	7.0
Total .....	75.5

**Test results driving test:**

Walk .....	7.0
Trot.....	6.5
Balance & posture .....	7.0
Suppleness .....	6.5
Transitions.....	7.0
Impulsion .....	7.5
Total .....	76.0

**Test results showdriving test:**

Walk .....	7.0
Use foreleg .....	7.5
Use hind leg.....	7.0
Suspension.....	6.5
Posture .....	7.0
Front.....	7.5
Suppleness .....	6.5
Impulsion .....	7.5
Total .....	78.0

**Conclusions Central Examination:**

Mans 543 has completed his Central Examination with good results. The stallion struggled with the under-saddle part but demonstrated a constant, growing line in the in-harness disciplines.

**Dam line:**

Mans 543's dam is Femcke van de Gonda Star Preferent (Norbert 444), a 14-year-old mare with eight offspring.

Considering her age Femcke has kept herself well but overall she might have been a little more bigframed. She is breed-typical with abundant feathers, satisfactory expression of the head and a long, fractionally horizontal neck. The mare shows satisfactory horizontal conformation, she has a strong back with a wide loin section and her shoulder conformation has satisfactory slope and length. Her dry legwork shows satisfactory durability as well as correct stance. Her

walk has satisfactory scope and regularity, although she would benefit from a little more reach in the foreleg and more power. She has a spacious trot with good bend and power in the hind leg. Femcke shows good transitions in trot, displaying lots of suppleness and use of the body. Femcke's dam, the 19-year-old Nienke van de Gonda Star Preferent (Beart 411) is also present and appears to be remarkably fit and durable and has her 14th foal at her side.

**Final conclusion:**

Mans 543 is a breed-typical, correctly-built stallion with lots of youthful expression. The stallion possesses three correct basic gaits and clearly shows to have more talent for the driven disciplines. He has improved in the course of the CE and stems from the first crop of offspring by Teun 505 Sport AAA.

**Advice for use:**

Mans 543 can be used on mares with a powerful trot and is expected to add youthfulness and correct conformation.
