### Observations stable manager, riders and drivers:

Kees 531 has an inquisitive nature and displays true stallion behaviour. Kees has a dominant character. In spite of being easily distracted his trainability is good.

### Central Examination:

Kees 531 completed the Central Examination at the age of three. In the course of the test the stallion's presentation started to show more calmness.

### Training report:

**Walk:** Kees 531 has a sound and regular walk, with satisfactory activity and length of stride.

**Trot:** The stallion moves in a light-footed, regular trot with good suppleness and use of the body. Kees 531 has good shoulder freedom and moves with active use of the hind leg and he is good at transitions.

**Canter:** Kees presents an uphill canter with good-quality strides and impulsion. In the course of the training he has developed more strength and has become less boisterous.

**Riding horse aptitude:**

Kees 531 has a lot of forward go and is very hardworking, but he is easily distracted and then starts to lose focus. This has however, strongly improved in the course of the test. The stallion has three good basic gaits, with an eye-catching good canter.

**In-harness aptitude:**

In front of the carriage the stallion demonstrates lots of front and forward go. Kees 531 has good shoulder freedom and good technique in the foreleg, transitions come easy to him and he has a long moment of suspension.

**Conclusie Central Examination:**

Kees 531 has successfully completed his Central Examination. He has a lot of talent for riding horse, driving horse and showdriving horse. He is eager to work but tends to be easily distracted. Under saddle his good canter catches the eye, in driven work he shows lots of front as well as fine use of the foreleg and a long moment of suspension.

**Dam line:**

Kees’s dam is the 9-year-old Rosa fan ‘e Hartstun Crown Sport AAA (Maurus 441). The mare has brought four foals with Kees being her second offspring. Rosa is a longlined mare. She has an expressive head and big eyes. She is very long in the neck, which is a little horizontal and rises slightly deep from the chest. Her shoulder has satisfactory slope, her topline should be a little stronger. Seen

from the front stance of the legwork is correct, her forelegs are slightly standing under, the hind legs are a fraction sickle-hocked. She has satisfactory dry quality of legwork with satisfactory size of feet. Rosa presents an active walk with satisfactory length of stride and rhythm. Her trot has satisfactory scope but she stays a little high in the croup. Rosa is Z2-qualified for dressage and earned 82.5 points for her IBOP with an 8 for walk. Rosa is a well-behaved, calm, friendly mare who is very eager to work.

**Final conclusion:**

Kees 531 is a longlined stallion with uphill body frame and he is a little longish in the mid-section. The stallion has a lot of go as well as suppleness. He demonstrates good movement technique in trot and canter. In the work the stallion tends to be easily distracted, but he shows good reaction to the aids.

**Advice for use:**

Kees 531 is expected to improve length of frame with correct croup length and croup conformation. He can also improve canter and capacity for transitions.
