Name:

Address:

City:

Country:

Phone number:

Email Address:

Vet statement implanted new chip

Name vet:

Date:

New chip number: please add the sticker of the chip number here

- When the father is a studbook stallion or stallion with permit:
- When the father is an foal book stallion without permit

Send dna horse and mother

Send dna horse, mother and father

For this testing a veterinarian has to **pull** hair samples of the horse (and when you have from the mother).

- First check the chip number, write on the envelope and then pull hairs.
- At least 20 hairs with visible roots. Keep the roots together with an small tape.
- Put the hairs separate in envelopes with name and registration number.
- Send the paper (and when you have passport) so we can add the new chip number

You can send this completed filled in form with the hair samples, chip barcodes and paper (and maybe passport) to:
